

Developing learning skills in parents and children...

An interactive and fast moving day of activities designed to unpack strategies for learning that can be used by carers, parents and children way into the future:

Areas to be looked at within the course:

Session 1 – parents

- Experiencing learning strategies in action
- Helping your young person to find motivation
- Devising strategies to help your young person apply learning strategies

Session 2 – young people

- Experiencing learning strategies in action
- Using your hobbies and interests to help you appreciate these learning strategies
- Planning your own learning rich activities for the summer

Session 3 – both groups together

- Devise a plan where shared activity together can lead to engrained learning ability and great FUN!

Application

Participants develop an ability to gain information, experience and skills that will aid future learning individually or together

Accreditation

Accreditation is offered by the National Open College Network at Level One for Progression Units HF1/1/QQ/009 (Supporting Your Children in Family Learning) & HF1/1/QQ/008 (Making & Using Story Sacks for Family Learning)
